\* NOTES:  
 -The mapped industries on this generated map are based predominantly on archival material.  
 - The orthogonal polygons within the legend represents the verified locus of the production and production-related activities, whereas the dots represent their unverified locations.  
 - The city zoning is based on the original map's indication drawn. The objective was to reveal the location of the industries and not compare the level of detail drawn on each base map.  
 -Only those district names are written on this phase map that are referred to within the text.  
 -Map scale as print 1:36000 @ 350x380 mm.
